# TO THE TRADE.

---

We herewith present you with our Revised Catalogue and Price List.

We hope by means of Good, Honest, Well-Made and Well-Finished Goods and Fair Dealing to continue to merit a share of your orders.

Thanking you for the liberal patronage with which we have been favored in the past, and asking those not acquainted with our goods to favor us with a trial order, which will be given careful and prompt attention, we remain,

Yours truly,

THE BUCKEYE CHAIR CO.

## Notice the Following Points.

---

1. Our chairs are made from carefully selected hard wood, Maple and Oak, and are finished in the best possible manner.

2. The frames are tenoned together. The perforated seats are made of extra heavy three-ply veneer, and the carpet seats are a No. 1 grade Tapestry Brussels.

3. Each chair has sufficient spread on the floor when placed in position to insure permanence without being fastened, and they can be reduced to the minimum of space at a single motion.

4. The back and seat are shaped just right for comfort.

5. As a seat for public halls our No. 25 has no superior. Our No. 10 or No. 60 are readily fastened together in a row, as shown on page 10, and the fastening does not interfere with the folding.

6. We warrant every chair against breakage or getting out of order in any way.

7. We allow the FREIGHT to all points on bills paid in 30 days.

8. Notice the compact manner in which they fold as shown on third page of cover.

9. They are recommended by hundreds of Undertakers who have them in daily use.

As a result of years of experience in the manufacture of Folding Chairs as a specialty, and a careful study of the requirements of the trade, we believe we now have the best goods of this kind to be found in the market.
